Art Unit:

Claims 14-28 and 34-38 are presented for examination.

The remarks filed on August 13, 2003 have been received and entered.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 14-23 and 34-38 are rejected under 35 U.S.C. 102 (b) as being anticipated by WO

91/04748. The WO Patent teaches the use of the inhibitors of the growth factor in a pharmaceutical formulation for the treatment of different fibrotic disorders. The above reference makes clear that the composition of claims 19-23 is old and well known. The recitation of a new use for an old composition does not create a patentably distinct use. See *In re Dillon*, 16 USPQ2d 1897 at 1900 (CAFC 1990). The use of claims 14-18 and 34-38 is inherently taught by the above reference. The cancellation of the word "preventing" will overcome the above rejection. See *Ex Parte Novitski*, 26 USPQ2d 1389 (BOPA 1993) illustrating anticipation resulting from the inherent use.

Claims 24-28 at present time are considered to be allowable.
